

That the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Indiana's Telephone Privacy law has improved my time at home. "I used to receive 12 calls per week, now I only receive one". If it is not broken, don't fix it. our law is working just fine as it is. Please consider this when making a decision. We wanted a change in Indiana and we took the proper measures to make that change. We don't need a different group of people making changes that affect our lives and not yours. This defeats the purpose of having local government!
